

Eve -

Since I probably have the biggest part in this whole incident I thought I should write down everything EXACTLY as I heard it and saw it.

You can choose who ~~are~~ or what you believe. This is an issue with you and dad, Polly & I got pulled into it unfairly and I wish I hadn't been there. Frankly, it disgusted me.

Polly, Caitlin, Helen and I were watching TV at our condo around 6:00 on Wednesday when dad told us that Mrs. Drew said dinner was ready, so ~~we~~ we went over to the Drew's around 6:10. Dad said he had an hour conference call & he'd be at the Drew's afterward.

I ate a quick dinner w/ Caitlin and Colleen was annoying us and we wanted cookie dough (which was ~~out~~ at our place) so we went back. First, our main door was locked for the first time the whole break.

I had a key, so I unlocked it. Then Room 101 (main place) was locked, and that's where I needed to be. So I tried to unlock it, but both locks were bolted shut for the first time the

entire vacation. I put my ear to the door to see if I heard dad on the phone. I wasn't going to bang on the door if he was on a call. I heard a squeaking noise, but thought nothing of it.

I knocked lightly a few times, but no one answered. So I sat and waited a couple minutes. It was probably 6:55 - 7:10 time frame. Maybe later.

I was on the floor when I heard the next part. My ear was not up on the door. I clearly heard dad. At first I thought he had like stubbed his toe or something but then it became more clear what noise he was making. Then I heard her.

I am sure of what I heard. It was not the TV (as dad says it was).

I ran into the other room, disgusted, shocked, & completely grossed out. Polly came in (randomly) and saw me. I asked what happened. I told her.

Then she listened & heard the woman talking. Dad came out & saw her & was surprised. He seemed nervous.

\* Polly asked if someone was in there, he said no.

He blocked the door & wouldn't let her in, He said he had a "big surprise", He hurried Polly & I out telling us to leave.

Polly ran back in and says she saw the woman in dad's bedroom.

Dad pushed her out & made us leave, as we were leaving we saw the woman trying to jump off the balcony.

Polly & I both saw her, she saw us and ran back inside, then she ran out the front door.

We went inside and fought with dad, He said he met her in the hot tub, she's 26, They were only having a drink, He said he locked all the doors and made her escape in that manner so we wouldn't see them together and "get the wrong impression".

Next day he says her brother had been there for 5 minutes also, he didn't tell us that before - which is weird. He said he lied to us so much to respect her wishes of not wanting his kids to know they were there together.

He also told us that he told her he was having trouble with his wife.

Dad also told me I was imagining things when I heard them.

Dad said I was creating this like I did w/ the whole harassment thing years ago.

I don't think I forgot anything in this note. I'm sure we'll talk about it.

Like I said, interpret this the way you want, but Polly & I both have our minds set no matter what excuses dad says.

He didn't even want us to tell you.

This is such shit, I'd rather have not been there.

P.S. You better not show him this because the last thing I need is for him to hate me for just happening to be there.

you fucked up my life.

I need my friends so badly...  
but I can't tell them. They  
don't need the burden.

I wonder what'll happen, who am I  
gonna live with?

ugh

how the fuck am I supposed to  
concentrate w/ all this shit  
going on? I can't focus for shit.

I really need to find someone who  
can help me here. I'm so  
desperate.

The kids are not alright.

I guess I'm not really that  
shocked,
