

before she got home i found shrooms in the basement i was like... what the fuck? i wasn't even sure what they were at first yeah no kidding she didn't tell me i was gonna talk to her about it but she was really pissed about the eve thing when she got home so i decided not to bring it ! up that night no i wasn't pissed about it i just wanted to talk to her about it sorry this has been on my chest for a few days but anyway i brought it up to her last night when i got home from helen's she said she's been doing them since the beginning of summer at first i just thought she was trying to make shit but now i think she's serious bc she said that might be why she didn't do so well at swimming state i mean she did o but it could've been better but either way i don't know very much about shrooms so i looked it up online i still don't know much it didn't really help but i don't know where the bag is... she said she wanted to get them out of the house before there was any possible way my dad or eve could find them if she ever came back back back why is that faster? yeah i know they would go ape shit but anyway she won't tell me how she got them i'm kinda worried about it yeah i figured... they're probably hard to grow anyway... i'm really worried but i don't wanna tell my dad because i haven't! seen how fucked up she gets on them i would... i told her it was stupid but she said she really likes doing it and it isn't that i was gonna tell my dad but he would tell eve and she would really fuck aud's life i really want to tell an adult who won't have her put in the hospital and i trust your parents a lot bc i know they would never tell my mom but i would never ask you to tell them if you didn't want to i just want her to have somewhere other than me to go in case anything serious happens bc honestly i don't know what to do well i know that your parents are somewhat cool a please i'm really worried about this if i knew more about it i wouldn't be so scared but i don't know anything about shrooms aud has no idea i did this so DONT tell her she would shit her pants i'm willing to risk it i guess just tell them how crazy and a bitch eve is and what she would do to aud yeah... just say that aud needs parents to look toward... i don't really want to but i only know a few people who have ever done shrooms and normally aud tells me everything but the fact that she ! hasn't said where she got them worries me and i don't know where she's doing them or why (other than the high i guess?) good you? really? sounds good to me no call me tonight 8:50 on my cell i'll turn the volume low don't make it sound too serious i'm glad you finally got aim bc my dad would've listened to this on the phone well it's just better than that aol shit so did you bad aol then? *bags sorry hahaeither way i'll talk to you tonight and see you at SCHOOL tomorrow ok thank you so much i love you babe bye bye i gg, ttyl huni gg, ttyl shey
